

Lorenne Botha – standing for Secretary

I have been a resident of New Zealand since 2011 and currently work at the University of Canterbury in the Health & Safety Department. I am one of the founding board members for the Christchurch Disc Golf Club and have held the position of Treasurer since its inception.

I decided to try my hand at throwing discs in 2015. What started as casual rounds with my family and other local players, soon became competitive. I have participated in many tournaments throughout the South Island over the years, which led to me to title as the 2019 NZDG's National Women's Masters Winner.

I enjoy watching new players hone their skills and would love to see the popularity of the sport grow within New Zealand.
